Dear Mr. Cowin,

I wanted to send on a follow up letter to let you know that the contracts are sent and en route and that we are excited to be entering into a long term agreement with you supporting the Volvo Road Machinery product line for years to come. We appreciate your past performance and look forward to continuing the successes together. As always please feel free to contact me with any needs you have and do not hesitate to rely on our field team which is one of the strongest in the industry.

Best Regards,
